

LeadershipTompkins

a community leadership development program

Leadership Tompkins – Community Leadership Resource

The Leadership Tompkins program serves three critical functions for community leadership development in Tompkins County:

- educate future leaders about the civic issues facing our county
- train future leaders in skills critical to their success in the community
- provide a forum for networking between current and future leaders

Leadership Tompkins assembles a diverse group of local citizens who want to develop their leadership skills and improve their community.

The program educates participants about the challenges of our community and the complexity of community dynamics.

Participants forge strong bonds and learn to approach challenges creatively using their collective talents and experience.

"LT opened my eyes to an amazing number of people and organizations that help this community make it as great as it is. I helped build business connections that still help me to this day"

Jodie VanVleet
Visitors Center

Leadership Tompkins – Making a Difference in Our Community

Whether it's serving on a board, holding an elected position, or mentoring a child, Leadership Tompkins graduates truly contribute to our community.

A Year of Challenges to Build Your Skills

Be one of the dynamic citizens selected to join Leadership Tompkins this year.

During monthly sessions, meet with business and community leaders to examine issues and resources of critical importance to Tompkins County.

Skill building sessions will help you advance in your career and your community work. Site visits, group discussions, and hands-on applications allow for active engagement. With more than 400 graduates, Leadership Tompkins gives you access to an extraordinary network of area leaders committed to the welfare of our county.

Who Should Attend

Leadership Tompkins is designed for individuals who want to become well-connected in the community in which they work or live, and who wish to give back to the community. Participants should have management experience in their work history or community pursuits, plus volunteer experience.

Tuition

Tuition includes all full-day sessions and materials, the retreat, and a graduation dinner celebration. This fee may be paid by the sponsoring business or organization, the participant, or a combination of the two. A limited number of partial scholarships is available.

Visit www.leadershiptompkins.org for complete information.

Program Format

The program is comprised of three elements: a two-day kickoff retreat, full-day monthly sessions, and a community action project. Attendance and completion of all elements are a requirement for program graduation.

Retreat

The retreat quickly transforms the newly assembled group into a team and provides the basic knowledge needed to succeed in Leadership Tompkins. During the retreat, participants will focus on getting to know themselves as leaders and learn about the business community resources within the group.

Monthly Sessions and Activities

Full-day meetings are held once a month from October through June. Activities include interviews with business leaders, research on community issues, tours, and experiential leadership exercises. Topics include leadership best practices, economic development, board service, education, local government and others. For details visit www.leadershiptompkins.org.

Community Action Project

A key element of our programs is the Community Action Project (CAP), which gives small groups of participants a chance to begin making a difference in the community right away, while developing an appreciation of the work required to bring an idea to fruition. Projects are selected by the participants based on mutual interest and ability to contribute, and must be completed in time for a June graduation presentation. For details visit www.leadershiptompkins.org.

Scheduled Sessions and Mandatory Events

- Two-day Retreat
- Monthly sessions/activities
- Community Action Project Report
- Graduation Dinner

"Leadership Tompkins gave me the opportunity to connect with many leaders in our community. This program develops and nurtures leaders and helps ensure that community decisions are made by informed and talented people."

Janet E. Steiner
Library Director
Tompkins County Public Library

"Ithaca is an extraordinary community with a diverse group of community leaders from all areas including non-profit agencies, small business entrepreneurs, government entities, Fortune 500 companies, and higher education. You'll find that many of our leaders are graduates of Leadership Tompkins. The benefits of the program are twofold – participants learn important leadership skills and at the same time get introduced to community leaders.

"I am also a graduate of Leadership Tompkins, and as a representative of M&T Bank I can attest to our continued commitment to this program. We encourage and cultivate employees to be engaged in the communities in which they live and work, and the benefits we've seen over the years from our employees that have participated in the program have been outstanding."

Howard Hartnett
